# 734 AV™ Series Lockbolt Installation Systems

**POP**  **Avdel**

# New Range of Installation Tools for Lockbolt Systems

---

POP Avdel lockbolt systems are designed for high strength, secure assembly. Quick and simple to place, durable and long lasting, they are the ideal solution where spot welding is not practical and other methods are costly, time consuming or not possible.

We have designed a new range of installation tools, especially suited for high speed installation of larger diameter lockbolts.

To determine the most suitable tool according to fastener size and application requirements, four parts have to be selected:

1. Hand tool
2. Nose equipment
3. Pump unit
4. Hydraulic hose

## Placing Tools and Nose Equipment

---

### Features

- Robust and highly durable installation tools
- High performance hydraulic seal & wiper technology
- Piston bearing rings
- Ergonomic and compact design
- High-speed operation

### Benefits

- Long working life in extreme conditions
- Increased seal & component life
- Low maintenance
- Optimised operator comfort
- Manoeuvrable in limited access applications
- High speed installation of fasteners

# AV™ Series Tools

Different AV hand tools suit the fastener size ranges and there is one nose equipment for each fastener size. Please select the model according to the diameter of the respective lockbolt.

All AV series tools work with all models of Enerpac PRO Series Pump Units.

# Enerpac® PRO Series - Pump Units

STANLEY Engineered Fastening has partnered with Enerpac, the World Leader in Hydraulic Equipment to offer a specialised selection of reliable, durable and versatile high-pressure hydraulic pumps to power all AV™ Hydro-Electric Power Tools.

## Features and Benefits

- High-efficiency hydraulic pump design; higher oil flow and bypass pressure, cooler running and requires 18% less current draw than comparable pumps
- Powerful electric motor provides high power-to-weight ratio and excellent low-voltage operating characteristics
- High-strength, molded composite shroud protects electric pump motor and electronics, while providing an ergonomic, non-conductive handles for easy portability
- Full sight oil level glass & durable steel reservoir
- All pump configurations able to power all AV series tools
- Accessories kit for heat exchanger and roll cage available

Reservoir heat exchanger

## Hydraulic Hose Assemblies

---

There are different hose lengths available. Please select the length according to application:

Hose Assembly Length	Part Number
5 metre	07008-00448
10 metre	07008-00449
15 metre	07008-00450

## Oil

---

Pump units are already supplied filled and primed with hydraulic oil. For future maintenance you can order the following:

Hydraulic Oil Volume	Part Number
1 litre	07992-00081
5 litres	07992-00082
20 litres	07992-00083

# Powerful Brands. Breakthrough Solutions.

At STANLEY Engineered Fastening we believe in seeking ways to serve our customers better. We create the future by anticipating our customers needs. Through diversifying our product lines, creating unique assembly technologies and offering a breadth of service to meet the demands of industry worldwide, STANLEY Engineered Fastening provides technological solutions to over 100 different industries.

**Avdel®**  
Avdel has been producing assembly systems since 1936 and offers a comprehensive range of fasteners and tooling.

**POP®**  
From 2mm micro rivets to 1/4" structural rivets, POP blind rivets meet the needs of multiple markets.

**Dodge®**  
With a focus on high-quality threaded inserts for plastics products, Dodge has been a leader in the fastening market since the 1950s.

**Spiralock®**  
Spiralock is a technologically superior fastening system ideally suited for threaded joint applications subjected to heavy shock and vibration.

**Gripco®**  
Gripco has been providing quality nut and threaded assembled products since 1904.

**STANLEY Assembly Technologies**  
STANLEY Assembly Technologies supplies production solutions to the global assembly market.

**Heli-Coil®**  
Based on a long history that began in the aerospace industry, Heli-Coil offers a vast range of high-quality thread inserts.

**Tucker®**  
A one-sided drawn-arc welding process is the foundation of the Tucker No-Hole assembly solution.

**iForm®**  
iForm continues a proud heritage since 1969 and represents over 40 years of creative threaded fastener application engineering.

**Warren®**  
Whether it's plastic, metal, or a combination of the two, Warren can design a product that will suit your environment.
