

An Acument™ Global Technologies Company

Avdel® Autoload® MK4.0 Tool

Avdel® Autoload® MK4.0 delivers up to 48 fasteners per minute continuously and directly to the application nosepiece. When fasteners on one mandrel are spent, a fully loaded batch automatically replaces it. The process takes six seconds and increases productivity up to 75 percent over conventional placement methods. Misshapen fasteners are automatically rejected without interrupting the process. Autoload MK4.0 applies the full range of Avdel Speed Fastening® rivets. These include Briv® speed fasteners for large bearing areas in soft materials, Rivscrew® removable rivets, and Chobert® speed fasteners for light clamp to reduce potential damage to soft and brittle materials. For more information, go to www.avdel-global.com, or e-mail infoavdelusa@acument.com
