For immediate release**Avdel® attends the Fastening Assembly and Solutions Exhibition**

WELWYN GARDEN CITY (UK) – 10 December 2008 - Whilst attending the Fastening Solutions and Assembly Exhibition on October 23rd Avdel® was proud to launch 3 previously unseen products:

- The 07287 Tool
- The ¼ Avibulb® Fastener
- The Genesis® Suspension Kit

The exhibition was buzzing with excitement over the new products as innovative solutions to

problems old and new are always eagerly awaited by the fastener market. Avdel® was pleased to meet people from all over the country, with over 100 people stopping by the stand.

The quality of the delegates was excellent with large numbers of engineers and buyers. Tom Morrison, Applications Engineer at

Avdel® commented “Overall an excellent show, fantastic organisation with more exhibitors and delegates than ever, the layout of the rooms was perfect and the location was great making the exhibition a good day out of the office”

The Avdel® engineers were pleased to meet not only people with a specific fastening problem, but also those looking to keep up to date with new technologies and expand their knowledge. New questions never met by our engineers were pondered and anything that could not be answered on the day with an existing product was taken back to the office to work on. Tony Tyson the Technical Support Engineer at Avdel® observed “Our stand was extraordinarily busy,

people saw the Avdel® sign and stopped because of the brand but stayed to chat about the new technologies and innovating solutions that Avdel® could offer.”

During the exhibition the Avdel® stand featured a ‘Guess how many rivets in a jar’ competition. We are now delighted to announce that the winner of the bottle of champagne is Stuart Betts from He-Man Dual Controls in Southampton. Also on the Avdel® stand was a competition to name our powerful new 07287 tool. We have now picked a name and are in the process of getting it trademarked. We hope to be able to announce the new name soon.

Avdel®, an Acument™ Global Technologies company, is a leader of blind-fastening products and associated installation tools. Thanks to a long period as a technology leader, Avdel's range of blind-fastening technologies is one of the widest available in the market. Avdel offers its customers world-wide availability with production facilities and sales networks in Europe, America and Asia Pacific.
